OHSU Funding Alerts:
Week of February 25, 2021

Internal Opportunities

**Multidisciplinary || OCTRI Mobile Apps for Clinical Studies (MACS)**

**What:** Funding to leverage new the REDCap functionality MyCap to create mobile apps that allow clinical study participants to report outcomes/data via a smartphone; the program aims to help fill the pipeline for BIP Digital Health by allowing PIs to conduct preliminary research and obtain user experience data

**Who should apply:** PIs who want to create a mobile app for clinical or commercial purposes

**Award:** Up to $5,000/typically one year

**Deadline:** Rolling; application will close when funding for the fiscal year is exhausted

Submit project intake form through REDCap

**Multidisciplinary || OHSU SoM Division of Pulmonary and Critical Care Medicine T32 Pulmonary & Critical Care Training Grant**

**What:** Program to support multidisciplinary research training for postdocs and graduate students in a range of disciplines including cell and molecular biology, whole organ pathophysiology, human based research and epidemiological research

**Who should apply:** Postdoctoral fellows and graduate students whose research and career trajectory are relevant to the biology and health care practices related to respiratory, critical care and sleep medicine

**Award:** Salary and tuition support as defined by the T32 terms/up to two years

**Deadline:** Feb. 28, 2021

Apply by sending the following to Samantha Ruimy: NIH-formatted biosketch; Career vision statement with comment on how this training opportunity would fit into overall trajectory in relation to pulmonary medicine (2-3 paragraphs); Research proposal/experimental plan (1-2 pages); Project narrative (2-3 sentences describing the relevance of the research to public health); and Letter of support from mentor

**Multidisciplinary || Medical Research Foundation Awards**

**What:** Three different award mechanisms to honor Oregon researchers: The Discovery Award acknowledges an Oregon investigator who has made significant, original contributions to health-related research while working in Oregon; The Mentor Award is presented to an Oregonian who has provided outstanding leadership in support or development of health research, education or the advancement of health care; and the Richard T. Jones New Investigator Award recognizes an early-career investigator who shows exceptional promise in biomedical research

**Who should apply:** Discovery and Mentor awardees must be Oregonians; New Investigator awardees must be within seven years of completing postdoctoral or mentored training

**Award:** $3 million

**Deadline:** April 1, 2021, midnight PT

**Neuroscience || Simons Foundation Autism Research Initiative Bridge to Independence Award Program**

**What:** Funding to engage early-career scientists in autism research by providing grant funding to facilitate their transition to research independence at the start of their professorships

**Who should apply:** Ph.D. and M.D.–holding scientists who are currently in training positions but intend to seek tenure-track research faculty positions during the upcoming academic year and have fewer than six years of postdoctoral or mentored training

**Award:** $495,000/three years

**Deadline:** April 12, 2021, 2 p.m. PT

This organization is on the President’s List; submit a notice of intent form before applying

FEATURED OPPORTUNITIES
years of completing clinical and/or post-doctoral training

**Award:** For Discovery and Mentor: $6,000 and a commemorative award; For New Investigator: $3,000 and a commemorative award

**Deadline:** March 9, 2021, 11:59 p.m. PT

Submit nominations through the CAP

**Occupational Health | Oregon Institute of Occupational Health Sciences Summer Student Research Awards**

**What:** Paid summer internships designed to introduce undergraduate students to biomedical and occupational health research and provide unique research opportunities across various basic and applied research areas

**Who should apply:** Undergraduate students who are Oregon residents or attend school in Oregon who are working toward their first four-year degree

**Award:** $2,500/eight to ten weeks

**Deadline:** March 15, 2021, 5 p.m. PT

Apply through the CAP

**Multidisciplinary | OCTRIO OSLER TL1 Program**

**What:** Supports training and career development in clinical and translational research for professional and PhD graduate students and postdoctoral clinical and research fellows; all research proposed must involve either clinical or translational research that involves human subjects or populations or research that has application to human health

**Who should apply:** Students enrolled in a doctoral program at OHSU, PSU, UO or OSU

**Award:** Predoctoral stipend: $25,320; Postdoctoral stipend: Set by NIH and based on years of training (additional tuition, fee and insurance coverage provided for both) up to one year with possibility for renewal

**Deadline:** April 1, 2021, 5 p.m. PT

Apply through REDCap

**Dentistry | School of Dentistry Exploratory Research Seed Grants**

**What:** Funding for researchers to generate preliminary data to develop new collaborative projects; possible uses for funding include supplies, costs associated with the use of a core or working with OHSU Cores, publications and travel

**Who should apply:** School of Dentistry faculty in the professorial series who plan to explore new research directions or apply to career development awards, research staff who plan to generate preliminary data to seed extramural funding, and postdoctoral fellows who plan to apply for K99/R00 and equivalent career development awards

**Award:** Up to $10,000/one year

**Deadline:** April 2, 2021

Apply through the CAP

**Multidisciplinary | MRF Early Clinical Investigator Award**

**What:** Funding to further the development of postdoctoral fellows or trainees who interact with human subjects and who are interested in a career in clinical research

**Who should apply:** Postdoctoral trainees and fellows with specific plans for a career in clinical research

**Award:** Up to $30,000/one year

**Deadline:** April 15, 2021, 11:59 p.m. PT

Apply through the CAP

**Multidisciplinary | MRF New Investigator Grant**

**What:** Supports promising investigators in biomedical research at the beginning of their independent careers

**Who should apply:** Assistant professors or equivalent who are independent but new to research and don’t yet have funding sources

**Award:** Up to $50,000/one year

**Deadline:** April 15, 2021, 11:59 p.m. PT

Apply through the CAP

**Multidisciplinary | MRF and OHSU Emergency Interim Support and Bridge Funding**

**What:** Provides funding for research programs that have lost national grant funding and enables investigators to develop data supporting application renewals; OHSU applicants can apply for both MRF Emergency Interim Support and OHSU Bridge Funding

**Who should apply:** Researchers who need funding to keep their programs going

**Award:** Up to $50,000 from both MRF and Bridge funding/one year

**Deadline:** April 15, 2021, 11:59 p.m. PT

Apply through the CAP
**Multidisciplinary || OHSU and Kaiser**

Permanente NW Patient-Centered Learning Health Systems Science K12 Research Career Development Program

**What:** Supports researchers pursuing a career in learning health systems with a focus on rapid and continuous learning and translation of findings into patient-centered care; program begins in September 2021

**Who should apply:** Full-time OHSU researchers who can commit a minimum of 75 percent full-time professional effort to conducting research career development activities associated with award

**Award:** Up to $130,102 per year/duration not specified

**Deadline:** April 22, 2021, 4 p.m. PT

**Apply through the CAP**

---

**Nursing || OHSU School of Nursing Hartford Award for Research and Practice**

**What:** Provides support for SON faculty research and practice change projects aimed at improving the health and health care of older people in Oregon and beyond

**Who should apply:** All OHSU School of Nursing faculty who have completed a clinical or research doctorate; more eligibility details in Call for Proposals

**Award:** Up to $25,000/one year

**Deadline:** May 14, 2021, 5 p.m. PT

**Apply by sending applications to Marilyn Sanguinetti with a copy to SNORDS@ohsu.edu**

---

**Hepatology || Brenden-Colson Center for Pancreatic Care Fellowship**

**What:** Trains early-stage investigators for a career in research related to the biology, diagnosis or therapy of hereditary, inflammatory or malignant pancreatic disease; clinical, basic and population-based research will all be considered

**Who should apply:** Pancreatic researchers at the rank of postdoc, fellow, instructor, research assistant professor or similar entry-level positions who have limited or no previous work in the fields of pancreatic biology or pancreatic cancer

**Award:** Up to $8,000 plus a stipend

**Deadline:** Applications accepted anytime

---

**Cancer || CEDAR NIH Catalyst Funding**

**What:** Funding designed to help scientists pursuing CEDAR relevant research address reviewer concerns and resubmit their proposals to the National Institutes of Health

**Who should apply:** Applicants to NIH awards who received a score but were not funded

**Award:** Up to $250,000/one year

**Deadline:** Applications accepted anytime

---

**Liver || OHSU School of Medicine Exploratory Research Seed Grants**

**What:** Supports investigators who need to work with an OHSU core or with the Pacific Northwest National Laboratory (PNNL) to develop preliminary data for an application for...
extramural research support

Who should apply: School of Medicine faculty in the professorial series who have not received this award within the last year

Award: Up to $5,000/one year

Deadline: Applications accepted anytime

Apply through the CAP

Limited Submission Opportunities

Genomics || NHGRI Genomic Research Experiences for Genetic Counselors and Data Scientists

What: Supports research education activities in the mission areas of the NHGRI through two programs: Research Experience in Genomic Research for Data Scientists (R25) and Mentored Research Experiences for Genetic Counselors (R25)

Who should apply: For Data Scientist award, established investigators with significant research funding from NIH in genomics data science; for Genetic Counselor award, established investigators with funded research in genomics such as genomic medicine, ethical, legal and social issues in genomics and genomic epidemiology

Award: Up to $1.25 million/up to five years

Deadline: Internal submission due: Feb. 25, 2021; LOI due: April 25, 2021, 5 p.m. PT (LOI not required but highly encouraged); Application due: May 25, 2021, 5 p.m. PT

Apply through the CAP

Infectious Disease || NIAID Tuberculosis Research Advancement Centers (P30 Clinical Trials Not Allowed)

What: Supports applications for the Tuberculosis Research Advancement Centers (TRACs) program with the goal of providing administrative and shared research support to foster and elevate multidisciplinary tuberculosis research and provide mentorship to new investigators

Who should apply: Anyone with an interest in providing support to the TRACs

Award: Up to $3 million/up to five years

Deadline: Internal submission due: March 15, 2021; LOI due: May 15, 2021, 5 p.m. PT (LOI not required but highly encouraged); Application due: June 15, 2021, 5 p.m. PT

Apply through the CAP

Multidisciplinary || NCATS Screening for Conditions by Electronic Nose Technology (SCENT) (U01 Clinical Trial Optional)

What: Supports the development of a portable sensing device to detect volatile organic compounds (VOCs, i.e. scents or odors) emanating from skin and to develop a catalog of VOCs as distinct signatures for at least 20 human diseases and conditions

Who should apply: Multidisciplinary teams comprised of biomedical engineers, material scientists, biosensing experts, software engineers, chemists, clinicians, clinical trialists, biostatisticians, data analysts and/or other relevant experts in academia and industry

Award: Up to $3.7 million/up to five years

Deadline: Internal submission due: March 17, 2021; LOI due: May 10, 2021, 5 p.m. PT (LOI not required but highly encouraged); Application due: June 10, 2021, 5 p.m. PT

Apply through the CAP

Immunology || NIAID Human Immunology Project Consortium (HIPC) (U19 Clinical Trial Optional) and Coordinating Center (U01 Clinical Trial Not Allowed)

What: Supports a project consortium that aims to characterize human immune responses/mechanisms elicited by vaccinations, vaccine adjuvants or natural infections by capitalizing on recent advances in immune profiling technologies and a coordinating center to support the consortium

Who should apply: Anyone with a research interest in human immune responses

Award: For project consortium: Up to $7.5 million/up to five years; For coordinating center: Up to $9 million/five years

Deadline: Internal submission due: March 18, 2021; LOI due: May 4, 2021, 5 p.m. PT (LOI not required but highly encouraged); Application due: June 4, 2021, 5 p.m. PT

Apply through the CAP

New this week!

Immunology || NIGMS Undergraduate Research Training Initiative for Student Enhancement (U-RISE) (T34)

What: Supports domestic institutions to develop and implement effective, evidence-informed approaches to biomedical training
and mentoring that will keep pace with the rapid evolution of the research enterprise

Who should apply: At least one of the training PIs should be an established investigator in the biomedical sciences and capable of providing both administrative and scientific leadership to the development and implementation of the proposed program; The contact PI is expected to have a full-time appointment at the applicant institution unless well-justified

Award: Budgets should reflect the actual needs of the project; awards are good for up to five years and have a possibility of renewal

Deadline: Internal submission due: March 29, 2021; Application due: May 26, 2021, 5 p.m. PT
Apply through the CAP

Translational Science || NCATS New Chemistries for Un-drugged Targets through A Specialized Platform for Innovative Research Exploration (ASPIRE) Collaborative Research Program (UG3/UH3 Clinical Trials Not Allowed)

What: Supports translational and clinical research between NCATS intramural scientists and the extramural community to develop approaches that will develop new chemistries towards previously undrugged biological targets across many human conditions

Who should apply: At least one intramural scientist must be either a PI or collaborator; collaboration of the extramural PI and the intramural investigator(s) is required

Award: For UG3: Up to $1.5 million/up to two years; For UH3: Up to $4/up to four years; maximum total duration is five years

Deadline: Internal submission due: April 8, 2021; LOI due: June 8, 2021, 5 p.m. PT (LOI not required but highly encouraged); Application due: July 8, 2021, 5 p.m. PT
Apply through the CAP

Neuroscience || Brain Research Foundation Scientific Innovations Award

What: Supports basic and clinical neuroscience projects that are too innovative and speculative for traditional funding sources but have a high likelihood of producing important findings in a short time frame

Who should apply: Full-time associate professors or full professors who are studying brain function and have had major peer-reviewed funding in the last three years

Award: $150,000/two years

Deadline: Internal submission due: April 26, 2021; LOI due: June 24, 2021, 2 p.m. PT; Application due: Sept. 28, 2021, 2 p.m. PT
Apply through the CAP

Merit Prizes and Awards

Hematology || NHLBI Hope for Sickle Cell Disease Challenge

What: Competition to award innovative information dissemination tools, instruments or devices that help spread evidence-based information about sickle cell disease so people living with the disease can live healthier lives

Who should apply: Teams of at least three and no more than five full-time undergraduate or graduate students with a team mentor

Award: Up to $50,000 total divided among up to three winners

Deadline: Register by: Feb. 26, 2021 8:59 p.m. PT; Submit by: March 26, 2021 8:59 p.m. PT

Cancer || National Foundation for Cancer Research Salisbury Award Competition for Entrepreneurial Translational Research

What: Encourages scientists and early stage startups to translate their discoveries into therapies that can improve the lives of cancer patients and advance promising research innovations onto the path of commercialization

Who should apply: Investigators with translational cancer research projects that are associated with promising scientific discoveries, have viable clinical trial approval prospects and whose intellectual property has not yet been licensed or acquired by parties outside of the applying institution

Award: $5,000, $3,000 and $2,000 for first, second and third place, respectively

Deadline: Feb. 28, 2021, 8:59 p.m. PT

New this week!

Multidisciplinary || Health Research Alliance and the Public Library of Science Reimagine Biomedical Research for a Healthier Future Essay Challenge

What: Invites essays that propose systemic changes that re-commit to serving society and
achieving an equitable, diverse, and creative environment for those advancing scientific discovery and improving human well-being

Who should apply: Investigators and teams of investigators who are interested in creating new ways of performing biomedical research

Award: $5,000 for the winner; $2,500 for honorable mentions
Deadline: March 11, 2021

Multidisciplinary || Science & PINS Prize for Neuromodulation

What: Honors innovative research that modulates neural activity through physical (electrical, magnetic, optical) stimulation of targeted sites in the nervous system with implications for translational medicine

Who should apply: Investigators who are younger than 45 and received their degree in the last 10 years

Award: $25,000
Deadline: March 15, 2021

Multidisciplinary || Cocrodie Fly Fishing Foundation Education Award

What: Scholarships for students of all disciplines who submit compelling essays on fishing, outdoors and adventure activities

Who should apply: Students who are US citizens or permanent residents

Award: $1,500
Deadline: March 30, 2021

New this week!

Multidisciplinary || Breakthrough Prize in Life Sciences

What: Honors individuals who have made transformative advances in understanding living systems and extending human life; one prize is designated for work contributing to the understanding of Parkinson’s disease or other neurodegenerative disorders

Who should apply: Anyone who fits the above description; self-nominations are not considered

Award: $3 million
Deadline: April 1, 2021, midnight PT

NIH Federal Opportunities

This week the NIH released funding opportunities concerning infectious disease, drug development and global medicine. We’ve highlighted some opportunities of potential interest below.

Dermatology || CDER Dermal Physiologically-based Pharmacokinetic (PBPK) Models Accounting for the Absorption and Evaporation of Vehicle/Co-solvent following the Application of Generic Dermatological Products (U01)

What: Funding to develop an enhanced mechanistic pharmacokinetic model for generic dermatological drug products by accounting the absorption and evaporation of vehicle/co-solvent simultaneously and implementing the effect of these processes on the permeation of drug molecule through skin

Who should apply: Anyone with a research interest in dermatological product permeation

Award: Up to $500,000/up to two years
Deadline: LOI due: March 10, 2021 (LOI not required but highly encouraged); Application due: April 22, 2021, 5 p.m. PT

Cancer || NCI Cancer Prevention, Detection, Diagnosis, and Treatment Technologies for Global Health (U01 Clinical Trial Optional)

What: Supports projects to adapt, apply and validate existing or emerging technologies into a new generation of user-friendly, low-cost technologies for preventing, detecting, diagnosing and treating cancers in people living in low- and middle-income countries

Who should apply: The main collaborating individuals from the proposed high-income
countries and LMIC institutions must serve as PIs or other key personnel, and multi-PI applications are encouraged

**Award:** Up to $2.375 million/up to five years

**Deadline:** LOI due: May 2, 2021 (LOI not required but highly encouraged); Application due: June 2, 2021, 5 p.m. PT

**Multidisciplinary || Multiple NIH Organizations** Tobacco Regulatory Science (R01 Clinical Trial Optional)

What: Supports biomedical and behavioral research that will provide scientific data to inform regulation of tobacco products to protect public health; projects must address the research priorities of the Food and Drug Administration Center for Tobacco Products

Who should apply: Anyone with a research interest in regulation of tobacco products

**Award:** Up to $3 million/up to five years

**Deadline:** LOI due: May 22, 2021 (LOI not required but highly encouraged); Application due: June 22, 2021, 5 p.m. PT

**Infectious Disease || NIAID Innovation for Tuberculosis Vaccine Discovery (ITVD)** (R61/R33 Clinical Trial Not Allowed)

What: Support the design of novel tuberculosis vaccine candidates that exploit innovative approaches and their advancement into preclinical animal model testing

Who should apply: Anyone with a research interest in tuberculosis vaccine

**Award:** Up to $2.1 million/up to five years

**Deadline:** LOI due: May 30, 2021 (LOI not required but highly encouraged); Application due: June 30, 2021, 5 p.m. PT

**Audiology || NIDCD Notice of Special Interest:** Hearing Healthcare for Adults: Improving Access and Affordability

What: Supports research on hearing health care in adults that improves access and affordability with the goal of delivering better hearing health care outcomes in adults

Who should apply: Anyone with a research interest in developing more accessible and affordable adult hearing treatments

**Award:** Dependent upon FOA you apply through

**Deadline:** Open from June 5, 2021, through Jan. 7, 2024

**Infectious Disease || FIC and NIAID Global Infectious Disease Research Training Program [D43 Clinical Trial Optional]**

What: Supports collaborative training programs that will strengthen the capacity of a low- and middle-income country institutions to conduct infectious disease research not including HIV/AIDS

Who should apply: PIs who are an established investigator in the scientific area in which the application is targeted and have research and research training experience in the LMIC that is the focus of the application

**Award:** Up to $1.15 million for new applications and up to $1.38 million for renewal applications/up to five years

**Deadline:** LOI due: July 3, 2021 (LOI not required but highly encouraged); Application due: Aug. 3, 2021, 5 p.m. PT

**Other Federal Opportunities**

**Cancer || DoD Peer Reviewed Cancer Research Program Behavioral Health Science Award**

What: Supports innovative research and high-reward concepts that span the spectrum of behavioral health science including prevention, survivorship, quality of life and psychosocial research related to cancer

Who should apply: Independent investigators with a faculty-level or equivalent appointment
**Cancer || DoD Peer Reviewed Cancer Research Program**

**Career Development Award – Fellow Option**

*What:* Supports independent, early-career investigators to conduct impactful research with the mentorship of an experienced cancer researcher

*Who should apply:* PIs must be independent investigators who are at or above the level of assistant professor, instructor or equivalent and within seven years of their terminal degree; mentors must be at or above the level of associate professor or equivalent and have a proven publication and funding record in cancer research

*Award:* Up to $400,000/up to three years

*Deadline:* Not announced yet; will be posted here again when deadline is announced

---

**Cancer || DoD Peer Reviewed Cancer Research Program**

**Impact Award**

*What:* Supports hypothesis-driven, high impact research that specifically focuses on critical scientific and clinical cancer issues, which, if successfully addressed, have the potential to make a near-term major impact on one of the FY21 PRCRP Topic Areas

*Who should apply:* Independent investigators at or above the level of assistant professor or equivalent

*Award:* Up to $1.25 million/up to three years

*Deadline:* Not announced yet; will be posted here again when deadline is announced

---

**Cancer || DoD Peer Reviewed Cancer Research Program**

**Idea Award**

*What:* Supports innovative, untested, high-risk and potentially high-reward concepts, theories, paradigms and methods in cancer research with an emphasis on innovation

*Who should apply:* Independent investigators with a faculty-level or equivalent appointment

*Award:* Up to $500,000/up to three years

*Deadline:* Not announced yet; will be posted here again when deadline is announced

---

**Cancer || DoD Peer Reviewed Cancer Research Program**

**Translational Team Science Award**

*What:* Supports translational studies associated with an ongoing or completed clinical trial that can lead to a future clinical trial or clinical application in cancer research

*Who should apply:* At least two and a maximum of three PIs must collaborate in one overarching correlative or translational research study; at least one of the PIs is encouraged to be a military or US Department of Veterans Affairs investigator

*Award:* Up to $2.5 million/up to four years

*Deadline:* Not announced yet; will be posted here again when deadline is announced

---

**Cancer || DoD Peer Reviewed Cancer Research Program**

**Multidisciplinary || NSF Future Manufacturing (FM)**

*What:* Supports fundamental research and education of a future workforce to overcome scientific, technological, educational, economic and social barriers to enable manufacturing capabilities that do not exist today

*Who should apply:* Anyone with a research interest in cyber, eco or bio-manufacturing research

*Award:* Anticipated total funding is $32.2 million; estimated program budget, number of awards and average award size/duration are subject to the availability of funds

*Deadline:* May 14, 2021, 5 p.m. PT

---

**Private Opportunities**

**American Cancer Society The Role of Health Policy and Health Insurance in Improving Access to and Performance of [AF STFP)**

*What:* Postdoctoral and senior research awards to conduct independent research in an area compatible with the interests of the Air Force laboratories

*Who should apply:* U.S. citizens who hold, or anticipate earning, a doctorate in a variety of fields of science or engineering

*Award:* Base stipend is $76,542; may be higher based on experience/duration dependent upon award but maximum is four years

*Deadline:* May 14, 2021, 5 p.m. PT
Cancer Prevention, Early Detection, and Treatment Services
What: Supports research projects focused on changes in national, state and/or local policy and the response to those changes by healthcare systems, insurers, payers, communities, practices and patients
Who should apply: Independent investigators at all stages of their career with a research interest in health policy and insurance
Award: Up to $1 million/up to five years
Deadline: April 1, 2021, 8:59 p.m. PT

Multidisciplinary || Fahs-Beck Fund for Research and Experimentation
Doctoral Dissertation Grant Program
What: Support for the dissertation expenses of doctoral students whose studies could add to knowledge about the well-being of children, adults, couples, families and communities using interventions designed to prevent or alleviate behavioral, social and psychological health problems
Who should apply: Students enrolled in an accredited doctoral program in the United States or Canada
Award: Up to $7,000/duration not specified
Deadline: April 1, 2021, 2 p.m. PT

Multidisciplinary || Fahs-Beck Fund for Research and Experimentation
Faculty/Post-Doctoral Research Grant Program
What: Supports studies to develop, refine, evaluate or disseminate interventions to address social, psychological, behavioral or public health problems affecting children, adults, couples, families, and communities with outcomes that could add to services and program development
Who should apply: Ph.D. and M.D.–holding scientists who are currently in training positions but intend to seek tenure-track research faculty positions during the upcoming academic year and have fewer than six years of postdoctoral or mentored training
Award: $495,000/three years
Deadline: April 12, 2021, 2 p.m. PT
This organization is on the President’s List; submit a notice of intent form before applying

Nursing || Sigma Theta Tau
Sigma/Association of Nurses in AIDS Care (ANAC) Grant
What: Encourages research career development of nurses through support of clinically oriented HIV/AIDS research and increase the number of HIV studies being done by nurses
Who should apply: Registered nurses who have a master’s degree or are enrolled in a doctoral program; membership in one of the participating organizations is required
Award: Up to $2,500/up to one year
Deadline: April 1, 2021

Neuroscience || Simons Foundation Autism Research Initiative
Bridge to Independence Award Program
What: Funding to engage early-career scientists in autism research by providing grant funding to facilitate their transition to research independence at the start of their professorships
Who should apply: Ph.D. and M.D.–holding scientists who are currently in training positions but intend to seek tenure-track
