OHSU Funding Alerts: Week of June 10, 2021

OHSU Funding Opportunities

**Multidisciplinary** || OHSU Foundation Collins Medical Trust

**What:** Provides seed funding for projects that advance basic or clinical medical research and will be leveraged to have a greater impact in the future through being eligible for future NIH or other substantial funding; successful proposals will highlight impact on the immediate population served, Oregon and potential national impact

**Who should apply:** Early career investigators, including postdoctoral fellows and assistant professors, who are clearly supported by their mentors

**Award:** Up to $30,000/one year

**Deadline:** Notice of Intent form is required and submission window goes through June 11, 2021; Application due: Dec. 31, 2020

**Questions? Contact the OHSU Foundation**

**Cancer** || OHSU Knight Cancer Institute Innovation Awards

**What:** Funding for broader, transdisciplinary and/or translational cancer research initiatives that would otherwise be too large in scale to warrant using traditional pilot funding

**Who should apply:** Faculty who are an assistant professor or higher with an appointment at OHSU, can show sufficient commitment to the project to ensure success and have support from a department chair, division head or institute director

**Award:** Up to $500,000/three years

**Deadline:** June 28, 2021

**Apply through the CAP**

**Cancer** || OHSU Knight Cancer Institute PhD Scholar COVID-relief Awards

**What:** Supplemental funding for innovative PhD Scholar research projects in the spirit of COVID-relief

**Who should apply:** PhD Scholars who are sufficiently focused on cancer-related research and have support from a faculty advisor

**Award:** Up to $50,000/one year

**Deadline:** June 28, 2021

**Apply through the CAP**

**OHSU Postbaccalaureate Research Education Program (PREP)**

**What:** Program for recruiting and retaining Persons Excluded because of their Ethnicity or Race (PEER) postbacs for an intensive, mentored experience research experience with the goal to prepare them for pursuing a graduate degree in biomedical research

**Who should apply:** Researchers who have graduated or are in the process of graduating with a baccalaureate degree in a biomedically relevant science from an accredited college or university after June 1st, 2018, are US citizens, nationals or permanent residents, are not currently enrolled in a degree program and belong to a group considered to be underrepresented in the field of biomedical research; see more details

**Award:** Competitive research assistant salary and health benefits, as well as program benefits/one year

**Deadline:** Application review begins July 2, 2021, and continues until all positions are filled

**Send questions to PREPtograd@ohsu.edu**

**Apply through the CAP**
Cancer || OHSU Knight Cancer Institute and AstraZeneca Partner of Choice
What: Partnership between Knight Cancer Institute and AstraZeneca that solicits proposals using the KCI’s site-specific capabilities to advance understanding of disease biology and resistance mechanisms; see this OHSU Now post for more information and materials to assist in drafting a proposal
Who should apply: KCI researchers
Award: Contact Dan Coleman, Alliance Manager for the AstraZeneca Partner of Choice Program at OHSU, for budget questions
Deadline: Proposals due to AstraZeneca June 30, 2021; if interested in drafting a proposal, contact Dan Coleman

Pediatric Cardiology || Doernbecher Children’s Hospital ADHERE- Advancing Doernbecher Heart Research
What: Awards protected time in order to further cardiovascular research in children and to support scholarly advancement of faculty
Who should apply: Faculty in the Division of Cardiology in the Department of Pediatrics
Award: Up to 0.3 FTE of protected time
Deadline: July 2, 2021, 11:59 p.m. PT
Apply through the CAP

New this week!
Multidisciplinary || NIGMS, OHSU Research & Innovation and Vollum Institute OHSU Postbaccalaureate Research Education Program (PREP)
What: Program for recruiting and retaining Persons Excluded because of their Ethnicity or Race (PEER) postbacs for an intensive, mentored experience research experience with the goal to prepare them for pursuing a graduate degree in biomedical research
Who should apply: Researchers who have graduated or are in the process of graduating with a baccalaureate degree in a biomedically relevant science from an accredited college or university after June 1st, 2018, are US citizens, nationals or permanent residents, are not currently enrolled in a degree program and belong to a group considered to be underrepresented in the field of biomedical research; see more details
Award: Competitive research assistant salary and health benefits/one year
Deadline: Application review begins July 2, 2021, and continues until all positions are filled
Send questions to PREPtograd@ohsu.edu
Apply through the CAP

Cancer || CEDAR NIH Catalyst Funding
What: Funding designed to help scientists pursuing CEDAR relevant research address reviewer concerns and resubmit their proposals to the National Institutes of Health
Who should apply: Applicants to NIH awards who received a score but were not funded
Award: Up to $250,000/one year
Deadline: Applications accepted anytime

Multidisciplinary || OCTRI Mobile Apps for Clinical Studies (MACS)
What: Funding to leverage new the REDCap functionality MyCap to create mobile apps that allow clinical study participants to report outcomes/data via a smartphone; the program aims to help fill the pipeline for BIP Digital Health by allowing PIs to conduct preliminary research and obtain user experience data
Who should apply: PIs who want to create a mobile app for clinical or commercial purposes
Award: Up to $5,000/typically one year
Deadline: Rolling; application will close when funding for the fiscal year is exhausted
Submit project intake form through REDCap

Multidisciplinary || OHSU Fellowship for Diversity in Research
What: Funds researchers with the goal of increasing the diversity of the community of scholars devoted to academic scientific research at OHSU
Who should apply: Investigators with
postdoctoral training experience looking to establish an independent academic research career; scholars who identify as underrepresented minorities, differently-abled and more are welcomed

Award: Up to $8,000 plus a stipend
Deadline: Applications accepted anytime

Public Health || OHSU-PSU School of Public Health
Kickstarter Awards
What: Funding to support pre-award activities that advance the preparation of high-quality grant or contract applications
Who should apply: OHSU and PSU faculty with primary appointment in OHSU-PSU School of Public Health who have an extramural RFA or other opportunity identified
Award: From $500 to $5,000/up to six months
Deadline: Accepted on a rolling basis through March 31, 2022
Apply through the CAP

Limited Submission Opportunities

Cancer || St. Baldrick’s Foundation Fellowship Awards and Infrastructure Awards
What: Supports oncology research in the following areas: New discovery research; translational research and early phase clinical trials; phase III clinical trials & infrastructure support of participating institutions (primarily the fall grant cycle); and education of new pediatric oncology researchers
Who should apply: Dependent upon grant you’re applying to; see the CAP for details
Award: For Fellowship: Up to $292,500/up to three years; For Infrastructure: Generally up to $50,000/up to one year
Deadline: Internal submission due: June 15, 2021; LOI due: July 9, 2021, 2 p.m. PT; Application due: Aug. 27, 2021, 2 p.m. PT
Apply through the CAP

Multidisciplinary || Multiple NIH Organizations
Launching Future Leaders in Global Health (LAUNCH) Research Training Program (D43 Clinical Trial Optional)
What: Supports up to six consortia to develop or expand global health research training programs intended to provide guidance to pre-doctoral, postdoctoral and post-professional trainees from the U.S. and low- and middle-income countries
Who should apply: Established investigators in one of the scientific areas in which the application provides research training and capable of providing both administrative and scientific leadership to the development and implementation of the proposed program; see more eligibility information in the FOA
Award: Up to $5 million/up to five years
Deadline: Internal submission due: June 21, 2021; LOI due: July 20, 2021, 5 p.m. PT (LOI not required but highly encouraged); Application due: Aug. 20, 2021, 5 p.m. PT
Apply through the CAP

Multidisciplinary || American Honda Foundation Grants
What: Supports youth education with a specific focus on the STEM subjects in addition to the environment
Who should apply: Anyone with a research interest in youth science education; the Foundation defines youth as pre-natal through 21 years of age and scientific education as both the physical and life sciences, mathematics and the environmental sciences
Award: Between $20,000 and $75,000/up to one year
Deadline: Internal submission due: June 16, 2021; Application due: Aug. 1, 2021
Apply through the CAP

Multidisciplinary || Edward Mallinckrodt, Jr. Foundation
Mallinckrodt Grants
What: Supports early stage investigators engaged in basic biomedical research that has the potential to significantly advance the understanding, diagnosis or treatment of disease
**Who should apply:** PIs who are in the first to fourth year of their tenure track faculty position and do not have current R01 funding

**Award:** Up to $180,000/up to three years

**Deadline:** Internal submission due: June 23, 2021; Application due: Aug. 1, 2021

**Apply through the CAP**

---

**Multidisciplinary || NIH Common Fund NIH Director’s Early Independence Awards (DP5 Clinical Trial Optional)**

**What:** Supports junior investigators who wish to pursue independent research soon after completion of their terminal doctoral degree or post-graduate clinical training and forgo the traditional post-doctoral training period and accelerate their entry into an independent research career

**Who should apply:** PIs cannot have research independence at time of submission and the receipt date of the terminal doctoral degree or end of post-doctoral clinical training of the PI must be between June 1, 2020 and September 30, 2022; additional eligibility info in FOA

**Award:** Up to $1.25 million/up to five years

**Deadline:** Internal submission due: June 28, 2021; LOI due: Aug. 3, 2021, 5 p.m. PT (LOI not required but highly encouraged); Application due: Sept. 3, 2021, 5 p.m. PT

**Apply through the CAP**

---

**Cancer || Gabrielle’s Angel Foundation for Cancer Research 2021 Medical Research Awards**

**What:** Supports physician scientists who are applying novel techniques to fundamental genesis and treatment problems in blood related cancers; one researcher conducting conventional research and one conducting integrative research may be nominated

**Who should apply:** Assistant professors and associate professors if they’re proposing integrative research who are tenure-track or independent; for conventional projects, must have held their current position no longer than five years

**Award:** $225,000/three years

**Deadline:** Internal submission due: June 29, 2021; Application due: Aug. 27, 2021

**Apply through the CAP**

---

**Infectious Disease || NIAID Centers for HIV Structural Biology (U54 Clinical Trial Not Allowed)**

**What:** Supports multidisciplinary consortia of structural biologists, virologists and computational scientists to resolve biological structures relevant to HIV prevention, treatment and cure

**Who should apply:** Anyone with a research interest in biological structures relevant to HIV

**Award:** Up to $3.5 million/up to five years

**Deadline:** Internal submission due: July 13, 2021; LOI due: Sept. 13, 2021, 5 p.m. PT (LOI not required but highly encouraged); Application due: Oct. 13, 2021, 5 p.m. PT

**Apply through the CAP**

---

**Nutrition || NIDDK Nutrition Obesity Research Centers (P30 Clinical Trial Optional)**

**What:** Establishes core centers that are part of an integrated and existing program of nutrition and/or obesity research; the program is designed to support three primary research-related activities: Research Core services, a Pilot and Feasibility program and an Enrichment program

**Who should apply:** PIs who have strong leadership abilities and demonstrated proficiency in managing large, multi-component programs and willing to participate in annual meetings of the Center Directors

**Award:** Up to $3.75 million/up to five years

**Deadline:** Internal submission due: July 20, 2021; LOI due: Sept. 20, 2021, 5 p.m. PT (LOI not required but highly encouraged); Application due: Oct. 20, 2021, 5 p.m. PT

**Apply through the CAP**

---

**Multidisciplinary || NIGMS Resource Center for the Support for Research Excellence (SuRE) Program (U24 - Clinical Trial Not Allowed)**

**What:** Establishes a Resource Center as part of the Support for Research Excellence (SuRE) program to develop and sustain research excellence at U.S. higher education institutions that receive limited NIH research support and serve students from groups underrepresented in biomedical research

**Who should apply:** Anyone with an interest in sustaining research programs at SuRE institutions

**Award:** Up to $3.75 million/up to five years

**Deadline:** Internal submission due: July 26, 2021; Application due: Sept. 26, 2021, 5 p.m. PT

**Apply through the CAP**
2021; Application due: Sept. 24, 2021, 5 p.m. PT
Apply through the CAP

New this week!
Multidisciplinary || Government of Canada 2022 Banting Postdoctoral Fellowships
What: Supports national and international postdoctoral applicants who will contribute to Canada's economic, social and research-based growth; 70 fellowships awarded annually
Who should apply: Non-Canadian citizens and permanent residents of Canada who plan to hold their fellowship at a Canadian institution and have fulfilled all degree requirements for a PhD, PhD-equivalent or health professional degree between September 15, 2018 and September 30, 2022
Award: $140,000/two years
Apply through the CAP

New this week!
Cancer || Cancer Research Institute Irvington Postdoctoral Fellowship Program
What: Supports young immunologists and cancer immunologists by continuing their training under the guidance of a world-renowned immunologist who mentors the fellow and prepares them for a productive and successful career in cancer immunology
Who should apply: Postdocs working in immunology or cancer immunology who have less than five years of relevant postdoc experience
Award: $175,000/three years
Deadline: Internal submission due: Aug. 5, 2021; Application due: Oct. 1, 2021, 2 p.m. PT
Apply through the CAP

Merit Prizes and Awards

Multidisciplinary || Life Science Editors Foundation Justice, Equity, Diversity and Inclusion (JEDI) Awards
What: Provides free scientific or language edits of a scientific manuscript or grant proposal to scientists who face disproportionate obstacles to career progression in academic science
Who should apply: Students, postdocs and PIs within seven years of the start of their position who identify as women, people from historically underrepresented races or ethnic groups, people from low socioeconomic backgrounds, people with disabilities, primary caregivers of any dependent, people who identify as LGBTQ+, and people in a low or lower middle income country
Award: Free edits from a former or current journal editor, technical writer or researcher
Deadline: Rolling and due on the 10th of every month; next deadline is June 10, 2021

Biomedical || Vilcek Foundation Vilcek Prizes for Creative Promise in Biomedical Science
What: Honors young, immigrant biomedical scientists who demonstrate outstanding early achievement
Who should apply: Researchers who were born outside the United States of America to non-American parents, born on or after January 1, 1983, immigrated to the U.S. on or before December 31, 2017 and have a full-time independent position; additional eligibility information in announcement
Award: $50,000
Deadline: June 11, 2021, 2 p.m. PT

Neuroscience || Eppendorf & Science Prize for Neurobiology
What: Honors a young scientist for the most outstanding neurobiological research based on
methods of molecular and cell biology conducted by them during the past three years.

Who should apply: Neurobiologists who received an advanced degree in the last 10 years and are not older than 35 years of age.

Award: $25,000

Deadline: June 15, 2021

**Multidisciplinary** || **American Association for the Advancement of Science Early Career Award for Public Engagement with Science**

What: Honors early-career scientists and engineers who demonstrate excellence in their contribution to public engagement with science activities.

Who should apply: Scientists or engineers actively conducting research in any scientific discipline who are within seven years of their terminal degree.

Award: $5,000

Deadline: June 30, 2021, 8:59 p.m. PT

**Multidisciplinary** || **Baxter Young Investigator Awards**

What: Recognizes innovative research by postdoctoral and graduate researchers in the development of therapies and medical products that save and sustain patients' lives.

Who should apply: Currently enrolled graduate students or postdoctoral fellows in North, Central, or South America at the time of submission.

Award: $3,000 for first-tier awards and $500 for second-tier

Deadline: June 30, 2021

**Multidisciplinary** || **Health and Environmental Sciences Institute Innovation Prize**

What: Recognizes scientists who have done exceptional research, training/education and programmatic work in one of the following areas: safe and effective medicines; food safety and security; chemical and consumer product safety; and environmental quality and sustainability.

Who should apply: Scientists submitting work they have completed within the last five years; self-nominations are permitted.

Award: $80,000 in unrestricted cash

Deadline: June 30, 2021

**Orthopedics** || **American Academy of Orthopaedic Surgeons Kappa Delta Awards and OREF Clinical Research Award**

What: Rewards either the results of basic and/or clinical research that relates to the musculoskeletal system (Kappa Delta) or clinical research related directly to musculoskeletal disease or injury (OREF).

Who should apply: Manuscripts must be submitted by a member (or candidate member) of the AAOS, ORS, Canadian Orthopaedic Association (COA) or Canadian Orthopaedic Research Society (CORS).

Award: $20,000

Deadline: July 1, 2021, 9:59 p.m. PT

**Multidisciplinary** || **Science & SciLifeLab Prize for Young Scientists**

What: Honors one young scientist for outstanding life science research for which they were awarded a doctoral degree in the previous two years; your thesis research must have been in one of the following categories to qualify: Cell and Molecular Biology; Genomics, Proteomics, and Systems Biology approaches; Ecology and Environment; Molecular Medicine.

Who should apply: Researchers whose thesis research falls into one of the above categories and who were awarded their Ph.D. between Jan. 1, 2019 and Dec. 31, 2020; prize will also only recognize work that was performed while the entrant was a graduate student.

Award: $30,000 for grand prize winner and $10,000 for each category winner.

Deadline: July 15, 2021

**Neuroscience** || **National Multiple Sclerosis Society Barancik Prize for Innovation in Multiple Sclerosis Research**

What: Recognizes an exceptional scientist or a team of scientists whose work in multiple sclerosis research has demonstrated outstanding innovation and originality.

Who should apply: Early to mid-career investigators active in MS research who have no more than 20 years of experience as an independent investigator or team leader.

Award: $100,000

Deadline: July 16, 2021
NIH Federal Opportunities

This week the NIH released funding opportunities concerning substance use, neurology and PPE. We’ve highlighted some opportunities of potential interest below.

Multidisciplinary || NHGRI, NIMH and ORIP
Non-Human Primate Developmental Genotype-Tissue Expression (NHP dGTEx) Project (U24 Clinical Trials Not Allowed)
What: Supports research on a tissue resource of multiple reference tissues across developmental stages in non-human primates (NHPs), transcriptome sequencing and other genomic analysis of single-cell and bulk tissues, gene expression patterns in NHPs and compare them to human gene expression patterns and making the tissue samples and data available and usable for the research community
Who should apply: Anyone with a research interest in genotype-tissue expression in non-human primates
Award: Not limited/up to five years
Deadline: LOI due: July 2, 2021 (LOI not required but highly encouraged); Application due: Aug. 2, 2021, 5 p.m. PT

Substance Use || NIAAA Collaborative Initiative on Fetal Alcohol Spectrum Disorders (CIFASD), Research Project (U01 Clinical Trial optional)
What: Supports research focused on identifying fetal alcohol spectrum disorder cases early and accurately, improving interventions to mitigate FASD outcomes, expanding basic and mechanistic understanding of alcohol teratogenesis aimed at accelerated translation and reducing prenatal alcohol exposure and the incidence of FASD; see also the CIFASD Administrative Resource (U24), Diagnostic-Telemedicine Resource (U24 Clinical Trial Not Allowed), Data Coordination Resource (U24 Clinical Trial Not Allowed) and Developmental Project (UH2 Clinical Trial Optional)
Who should apply: Anyone with a research interest in fetal alcohol spectrum disorder
Award: Not limited/up to five years
Deadline: LOI due: July 16, 2021 (LOI not required but highly encouraged); Application due: Aug. 16, 2021, 5 p.m. PT

Cancer || NCI The Early Detection Research Network: Clinical Validation Centers (U01 Clinical Trial Optional)
What: Funding for Clinical Validation Centers to conduct research to validate biomarkers and develop imaging methods for risk assessment and detection of early stage cancers; see also the EDRN Data Management and Coordinating Center and Biomarker Characterization Centers
Who should apply: Anyone with a research interest in early stage cancer detection
Award: Up to $3.69 million/up to five years
Deadline: LOI due: Aug. 9, 2021 (LOI not required but highly encouraged); Application due: Sept. 9, 2021, 5 p.m. PT

Multidisciplinary || NIH Common Fund NIH Director’s Transformative Research Awards (R01 Clinical Trial Optional)
What: Supports individual scientists or groups of scientists proposing groundbreaking, exceptionally innovative, original and unconventional research with the potential to create new scientific paradigms, establish entirely new and improved clinical approaches or develop transformative technologies
Who should apply: PIs with a strong high-risk/high-reward research project; the NIH especially encourages “individuals from diverse backgrounds” to apply
Award: Not limited/up to five years
Deadline: Sept. 1, 2021, 5 p.m. PT

Multidisciplinary || NIAID and OD Shared Personal Protective Equipment (PPE) Resources (S10 Clinical Trial Not Allowed)
What: Funding available to provide Personal Protective Equipment to directly support the needs of the NIH Clinical Trials and Clinical Research Activities
Who should apply: Anyone with a significant research need for PPE
Award: Must be more than $500,000/one year
Deadline: Sept. 24, 2021, 5 p.m. PT

Endocrinology || NIDDK Characterization of Islet-derived Extracellular Vesicles for Improved Detection, Monitoring,
Classification, and Treatment of Type 1 Diabetes (R01 Clinical Trial Not Allowed)

What: Supports development of tools and experimental platforms for the purification and characterization of extracellular vesicles originating from the human pancreatic islet and its broader tissue environment in healthy individuals and individuals who have Type 1 Diabetes or are at-risk of developing the disease

Who should apply: Anyone with a research interest in extracellular vesicles and T1D

Award: Up to $2.5 million/up to five years

Deadline: LOI due: Oct. 3, 2021 (LOI not required but highly encouraged); Application due: Nov. 3, 2021, 5 p.m. PT

Administrative Supplements

Rheumatology || NIAMS Supplements to Advance Research (STAR) from Projects to Programs (Admin Supp- Clinical Trial Not Allowed)

Other Federal Opportunities

Infectious Disease || NSF Predictive Intelligence for Pandemic Prevention Phase I: Development Grants (PIPP Phase I)

What: Supports research on articulation of an NSF grand challenge centered around a critical and broad question in pandemic predictive intelligence, proposals of novel conceptual research and technology developments that aim to advance state-of-the-art forecasting, real-time monitoring, mitigation and prevention of the spread of pathogens, and multidisciplinary team formation

Who should apply: PIs and co-PIs with balanced participation from computer and information science, biology, engineering and social, behavioral and economic sciences

Award: Up to $25 million in total funding with 25 to 30 estimated awards/one and a half years

Deadline: Oct. 1, 2021, 5 p.m. PT

Private Opportunities

Infectious Disease || Pfizer Burden of Community Acquired Pneumonia

What: Supports projects evaluating the burden of community acquired pneumonia, including but not limited to pneumococcal pneumonia, as well as risk factors for and complications from disease

Who should apply: Anyone with a research interest in pneumonia

Award: Up to $150,000/up to two years

Deadline: June 30, 2021, 8:59 p.m. PT

Multidisciplinary || North American Society for Pediatric Gastroenterology, Hepatology, and Nutrition Young Investigator Development Awards

What: Supports clinical, quality improvement, translational or basic science research projects related to either diseases of the gastrointestinal tract, liver, pancreas or nutritional disorders of children, or nutrition in infancy, childhood or adolescence

Who should apply: NASPGHAN members who have been in good standing for at least two years, have or will complete pediatric gastroenterology, advanced fellowship training or basic postdoctoral training within five years of the deadline and hold a full-time faculty position below the rank of associate professor

Award: Up to $150,000/up to two years

Deadline: July 1, 2021

Psychiatry || American Academy of Child and Adolescent Psychiatry Life Members Mentorship Grants for Medical Students

What: Provides medical students with the opportunity to attend AACAP’s annual
meets, receive an introduction to the field of child and adolescent psychiatry, participate in programs sponsored by the longest-serving and most distinguished members of AACAP and receive networking opportunities and exposure to a variety of specialties.

Who should apply: Students enrolled in medical school as of October 2021

Award: Up to $1,000 reimbursement for expenses to AACAP Annual Meeting

Deadline: July 2, 2021

Women's Health || Pfizer and Myovant Sciences Management of Uterine Fibroids and Endometriosis

What: Supports studies focused on improving the care of patients by addressing knowledge gaps in uterine fibroids, endometriosis or both.

Who should apply: Anyone with a research interest in uterine fibroids and/or endometriosis.

Award: Up to $250,000/up to two years

Deadline: July 29, 2021, 8:59 p.m. PT

Multidisciplinary || Pfizer Innovation Challenge: Patient Preference Database Blueprint

What: Support for the development of a blueprint for collating, organizing and storing publicly available results from multiple patient preference studies in a single database.

Who should apply: Anyone with a research interest in patient preference and database creation.

Award: Up to $50,000/five months

Deadline: Aug. 2, 2021

Cancer || Pfizer and Conquer Cancer, the ASCO Foundation Equitable Care of Metastatic Breast Cancer (mBC) Patients: A Phased Approach to Understanding and Addressing Healthcare Disparities for People of Color

What: Supports studies focused on understanding racial disparities in the access to and delivery of treatment and supportive care, including psychosocial and palliative care, and the outcomes for patients with metastatic breast cancer.

Who should apply: Anyone with a research interest in metastatic breast cancer disparities.

Award: Up to $150,000/one year

Deadline: Aug. 4, 2021, 8:59 p.m. PT

Cancer || Pfizer, Prostate Cancer Foundation and Myovant Sciences Relugolix Challenge Awards

What: Supports clinical investigations with correlative research for relugolix in prostate cancer, particularly on relugolix in combination with other standard-of-care or experimental systemic prostate cancer therapies, use of relugolix as an intermittent therapy, adherence to relugolix in real world settings and biomarker studies with ADT (GnRH agonists and antagonists).

Who should apply: Teams of at least three investigators from nonprofit academic research centers, including one young investigator who holds the title of postdoctoral fellow, instructor, research associate, assistant professor, or equivalent and is within six years of their professional degree.

Award: Up to $750,000/two years

Deadline: Aug. 16, 2021, 8:59 p.m. PT

Multidisciplinary || Fulbright Scholar Awards

What: Offers diverse opportunities for U.S. academics, administrators and professionals to teach, research, do professional projects and attend seminars abroad; available mechanisms include regular Scholar Awards, Distinguished Scholar Awards and Postdoctoral Awards.

Who should apply: U.S. citizens who have not resided abroad for five or more consecutive years in the six-year period preceding the application deadline.

Award: Not listed

Deadline: Sept. 15, 2021, 11:59 p.m. PT

Previously Published Opportunities

Federal

June 2021

Multidisciplinary || Multiple NIH Organizations Building Interdisciplinary Research Careers in Women's Health (BIRCWH) (K12 Clinical Trial Optional) Application due: June 11, 2021, 5 p.m. PT

Multidisciplinary || Multiple NIH Organizations
Early Intervention to Promote Cardiovascular Health of Mothers and Children (ENRICH) Multisite Clinical Centers (Collaborative UG3/UH3 Clinical Trial Required) and Multisite Resource and Coordinating Center (U24 Clinical Trial Required) Application due: June 11, 2021, 5 p.m. PT

Cancer || NCI The NCI Transition Career Development Award (K22 - Independent Clinical Trial Not Allowed), (K22 - Independent Clinical Trial Required) and (K22 Independent Basic Experimental Studies with Humans Required) Deadline: June 12, 2021, 5 p.m. PT

Aging || NIA Academic Leadership Career Award (K07 Independent Clinical Trial Not Allowed) Deadline: June 12, 2021, 5 p.m. PT

Neuroscience || NINDS Faculty Development Award to Promote Diversity in Neuroscience Research (K01 Clinical Trial Required) and (K01 Independent Clinical Trial Not Allowed) Deadline: June 12, 2021, 5 p.m. PT

Infectious Disease || NIAID Basic Research to Inform Vaccine and Therapeutic Development for Non-Polio Human Enteroviruses (NPEV) (R01 Clinical Trial Not Allowed) LOI due: June 13, 2021 (LOI not required but highly encouraged); Application due: July 13, 2021, 5 p.m. PT

Neuroscience || DoD Epilepsy Research Program Idea Development Award Pre-application due: June 14, 2021, 2 p.m. PT; Application due: July 21, 2021, 8:59 p.m. PT

Neuroscience || DoD Epilepsy Research Program Quality of Life Award Pre-application due: June 14, 2021, 2 p.m. PT; Application due: July 21, 2021, 8:59 p.m. PT

Neuroscience || DoD Epilepsy Research Program Research Partnership Award Pre-application due: June 14, 2021, 2 p.m. PT; Application due: July 21, 2021, 8:59 p.m. PT

Neuroscience || DoD Peer Reviewed Alzheimer’s Research Program Accelerating Diagnostic Research Award Pre-application due: June 14, 2021, 2 p.m. PT; Application due: July 21, 2021, 8:59 p.m. PT
