We are requesting applications from motivated and qualified PhD and MD scientists to train in our NIH-sponsored T-32 training program in translational cardiovascular medicine. The Knight Cardiovascular Institute at Oregon Health & Science University has made translational cardiovascular science a major priority of its educational mission.

This program funds postdoctoral scientists for 2 years to train and be mentored by highly accomplished clinical and basic research scientists who are renowned for applying cutting edge scientific ideas to improve human health. Unique aspects of our training program include provision of individualized curriculum and career development, and a multidisciplinary approach that involves co-mentorship from basic and clinical scientists.

Thematic hubs and faculty of the program include:

- Cardiovascular Regulation, Ischemia & Hypertension
- Cardiovascular Inflammation, Diabetes & Atherosclerosis
- Cardiovascular Development, Genetics & Genomics

The program goal is to continue our tradition of producing diverse scientists who are prepared for careers as independent investigators in academic institutions with a focus on bringing science to the benefit of patients from all backgrounds. Applicants from under-represented groups (see NIH definition) are strongly encouraged to apply.

**Trainee/Applicant Requirements**

- Trainees must have a graduate degree (MD, DO, PhD, DVM, PharmD, DDS, etc.).
- Trainees must either be a United States citizen, a non-citizen national of the United States, or have Permanent Resident status.

**Application Requirements**

- Curriculum vitae
- Statement of research experience, proposed science, and career goals (2 page max)
- Letter of reference from your proposed mentor plus two additional letters of recommendation
- Medical school or graduate school transcript (external candidates only)
- Selected applicants will be interviewed by the Program Recruitment and Selection Committee

Submit application materials in a single pdf document to Dr. Nabil Alkayed, Professor of Cardiovascular Medicine, (alkayedn@ohsu.edu). Applications must be received by October 30, 2023 to start the fellowship on January 1, 2024. Applications must be received by April 30, 2024 to start the fellowship on July 1, 2024.

Oregon Health & Science University values a diverse and culturally competent workforce. Individuals with diverse backgrounds and those who promote a culture of diversity and inclusion are encouraged to apply. We are proud to be an equal opportunity employer.
